JOHN DWIGHT & CO'S
SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co.'s
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by Steamboats, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of Steamboats on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Brier Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c, and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold it[illegible]sible for the correctness of all surveys and [illegible] its authorized agents, thus ending [illegible]ical correctness of surveys, and the [illegible] of the Company.
8. Any policy-holder [illegible]draw from the Company by paying [illegible] losses up to the time of such withdrawal.
9. This Company will [illegible] with promptness and liberality, if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the Empire Insurance Company, do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK
MUTUAL BENEFIT ASSOCIATION,
Union Springs, N. Y.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2800 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

### THERESA.

To thy poor grave I come alone!
No eye shall see the tears I shed
Above the lonely narrow bed,
Which still repeats this—"Thou art gone!"

Oh! when I think how oft I've pressed
Thy blooming cheek and called thee mine—
And then how long I saw thee pine—
Then die—then in thy white clothes dressed—

Makes the cold Moon look pale with grief!
—The Stars that used to shine so bright,
Are only tear-drops touched with light,
The sky is but a faded leaf—

Life but a flickering marsh-fire gleam,
And wife and friends, like withered hopes,
Sr twisting sand in brittle ropes
To moor their boats on Lethe's stream!

Eternity—a wrecker's light!
And thought, a fire-drop in the pool
Of grey oblivion; soon to cool
And quench itself in dust and night!

## WISCONSIN.

CONTINUED.

*Education.*

The bounty of Congress has set apart the 16th Section of every township in the State for the support and maintainance of common Schools. From this source, nearly 1,000,000 acres will accrue to the State, the proceeds of the sales of which are to constitute a permanent fund, the income of which is to be annually devoted to the great purpose of the grant. This magnificent foundation has been wisely enlarged by Constitutional provisions, giving the same direction to the donation of 500,000 acres, under the act of 1841, and the five per cent, reserved on all sales of Government lands within the State. A still larger addition will accrue from the grant of the Swamp and over-[illegible]nds, which the settlement of the country, th[illegible] of time, and easy processes of reclama[illegible] convert into the best meadow land [illegible]rld, and a large portion, ultimately, into [illegible]

[illegible]e support of a State University, seventy-two Sections of land, comprising 46,080 acres, have been already granted, and it is not improbable that this provision may be also enlarged by subsequent grants. If these trusts are administered with ordinary wisdom, the educational funds of Wisconsin, cannot be less, ultimately, than $3,000,000 and may reach $5,000,000.

The University is already chartered and in successful operation. The school system has been [illegible] designed, and the progress of organization, [illegible]e law, keeps pace with the progress of settle[illegible]. There are already not far from twothousand five hundred school districts in the State. The annual income to be divided, has already reached $70,000, and will be greatly increased from year to year.

The system contemplates, by the introduction of union schools, to extend academic instruction to each town in the State.

[illegible]ion to this munificent public provision [illegible] and liberal education, there are, in [illegible]rts of the State, educational incorporations, both academic and collegiate, founded on private subscription. The most promising of these are the College at Beloit, well endowed, and in successful operation; and similar institutions at Milwaukee, Racine, and Waukesha in Eastern Wisconsin, and at Appleton, in the North.

Indeed, in none of the new States, even in the Northwest, will the means of education be more ample; and in none is there a more rational appreciation of the importance of this paramount public interest.

In Wisconsin, as in the other States of this Union, there is, and ever will be, an entire freedom of ecclesiastical organization, and an equal protection of every religious institution and arrangement, conservative of good morals, and protective of the highest and most endearing interests of man.

In consideration of all these elements of prosperity, economical and social, such as have never, till now, gathered around the opening career of a new political community, there is little ground for wonder that the early growth of Wisconsin has been without a parallel in the history of States; and it may be very safely assumed, that the advent of men and capital to that favored portion of the Northwest, will continue, in increasing volume, for many years to come.

*Mining.*

To the practical miner or capitalist or operative, *the lead region of the upper Mississippi offers the most substantial inducements to settlement.* The exceeding abundance and richness of the mineral; the comparative ease with which it may be mined; and the high price it commands the moment it is brought to the surface, open to the industrious and prudent operator a highway to wealth.

New *leads* of the richest promise, have been recently discovered in the mineral district, and an increasing emigration to that section of the State, promises to replace the California draft, and to meet the growing demand for the mineral. The steady advance in the price of lead which has prevailed for five years past, is indicative of a gradual but decided extension of its uses in the arts. There is no ground for apprehension, that the supply will outrun the demand, or be able to work a reduction of the wages of labor and profits of capital in their industrial occupation, for some years to come.

The copper mines of Lake Superior are of established celebrity throughout the world, and open an inviting field for enterprise. The mining interest in that region is fast losing its character of adventure, and is attracting the attention of the prudent capitalist and the practical miner, as a remunerative branch of business.

The iron mines of Wisconsin have not yet been opened to any extent, but are worthy of the attention of the immigrant. There are rich localities of ore near the head waters of the Rock, and on the Upper Mississippi and its branches.

*Lumbering.*

To the lumberman, the pineries of Wisconsin present inducements for investment and settlement which can be hardly overrated. That of the Upper Wisconsin and its tributaries, is the most extensive; and distinguished still more for the fine quality, than the inexhaustible quantities of its timber. The other localities of the white pine and other evergreens, are mainly on the Wolf, the great northern affluent of the Fox, and on the La Crosse, the Black and the St. Croix, branches of the Upper Mississippi. The rapids of these streams furnish abundant water power for the manufacture of lumber, and on the annual spring rise, and occasional freshets at other seasons of the year, the yield of the mills is floated from the Wolf into Lake Winnebago and the Lower Fox; and from the other streams into the Mississippi.

Scarcely ten years have elapsed, since the Allegheny pine of Western New York and Pennsylvania, had undisputed possession of the market, not only of the Ohio Valley but of the Mississippi and its tributaries, above New Orleans; at which point it competed with the lumber of Maine and New Brunswick.

The course of the lumber trade may now be considered as permanently changed. The pineries of Wisconsin now control, and will soon hold exclusive possession of the market of the valleys of the Mississippi and its great western affluents.

*Agriculture.*

But it is to that great body of emigrants who are seeking a home in the West, as cultivators of the soil, that the natural capabilities of Wisconsin most of all, address themselves.

The prairies of Wisconsin, unlike those of Illinois, Missouri, Iowa and Minnesota, are none of them extensive; and are so skirted and belted by timber, as to be adapted to immediate and profitable occupation and improvement to their very centre.

The openings, which comprise a large portion of the finest land of Wisconsin, owe their present condition to the action of the annual fires, which have kept under all other forest growth, except those varieties of oak which can withstand the sweep of that element.

This annual burning of an exuberant growth of grass and of underbrush, has been adding, perhaps for ages, to the productive power of the soil, and preparing it for the plough-share, without the life long process which was necessary to bring the densely timbered land of Ohio to the same advanced point of preparation, for immediate and profitable cultivation.

It is the great fact, that nature has thus "cleared up" Wisconsin to the hand of the settler, and enriched it by yearly burnings, and has at the same time left sufficient timber on the ground for fence and firewood, that explains in a great measure, the capacity it has exhibited, and is now exhibiting, for rapid settlement and early maturity.

There is another fact important to be noticed in this connection. The low level prairie, or natural meadow, of moderate extent, is so generally distributed over the face of the country, that the settler, on a fine section of arable land, finds on his own farm, or in his immediate neighborhood, abundant pasturage for his stock in summer, on the open range; and hay for the winter, for the cutting—the bounty of nature supplying his need in this behalf, till the cultivated grasses may be introduced and become sufficient for his use.

It is this very rapid transition of a quarter section of government land into an *old farm*, without a tithe of the privations and hardships which hang around the life time of the early pioneers of Ohio, which distinguishes the early settlement of Wisconsin.

Every description of husbandry suitable to the latitude, may be successfully prosecuted. In addition to the usual routine of crops, the business of stock-raising, of dairy, of wool-growing and the culture of flax, are beginning to engage the attention of settlers, with promise of eminent success.

The steady and exclusive prosecution of agriculture on the fertile soil of the mineral district, has the advantage of an active home market and ready pay. Hitherto, in consequence of the tempting and absorbing nature of the mining business, the cultivation of the soil has given place to "prospecting" for mineral. Agricultural lands, therefore, though of the very first order of fertility, have been neglected, and may be purchased at very low rates.

The same general remarks apply to the agricultural lands in the pineries. Though of different elements from the soil which prevails in the limestone region, it is easily worked, and of undoubted productive power. This home market is still more importunate in its demands, and as promptly remunerative.

And of the millions of acres comprised in the area of Wisconsin, by far the greatest portion may be entered at the land offices at $1 25 per acre, paid down, in specie, or in land warrants.

Several hundred thousand acres of school lands in the older counties, are now open to entry at their appraised value, at the office of the Secretary of State, at the capitol in Madison; one-tenth of the purchase money down, and the residue on a long credit at seven per cent per annum.

Choice lands, located for the maintenance of the State University, may also be entered at their appraised value, at the office of the Secretary of State, on even better terms of payment than the school lands.

It is worth while to add, that the California em[illegible]ion and other temporary causes have thrown in market at reduced prices, many improved farms in choice locations in the older counties. The opportunity for investment thus offered is worthy of the attention of the emigrant; and facts relative thereto may be easily ascertained on inquiry at private land offices in the larger towns in the State.

*Manufactures.*

The artizan will find a fair fi[illegible] labor, and for the enjoyment of capital [illegible]

For the ordinary mechanical art[illegible] separable from agricultural thrift a[illegible] demand is importunate. Builders o[illegible] and degree are liberally paid in the larg[illegible] Millwrights are sure to find employment in [illegible] or country, whether the mill power be water or steam. Carriage making, from the manufacture of the rail road car to the simple vehicle, whether useful or tasteful, is greatly in demand and cannot fail to do well.

Among the larger operations of manufacture, those of flour and lumber are becoming sources of profit to the farmer.—Woolen, flax and cotton mills must soon become fixed facts in Wisconsin. The raw material for the two former, will soon be among the larger and more profitable home productions of her agriculture, while the supply of cotton will, through the channal of the Mississippi, be more direct, safe and easy, than by sea, to towns on the Atlantic border. For all these operations there is abundant water power in suitable locations.

For the construction of steamboats and every variety of lake craft, the Western coast of Lake Michigan is eminently adapted; and it may be reasonably anticipated that a large share of the ship and boat building for these inland waters will be done in the ports on that shore. The iron and lumber of Northwestern Wisconsin will attract to that quarter much of the boat building for the Mississippi and its branches.

Nor is it to be presumed that Wisconsin will be long tributary to Buffalo or Pittsburg for its engines, whether for the steamer, the locomotive or the mill. No point on the Lakes presents more advantages than Milwaukee for foundries, for castings and machinery of every description.

All these, and the thousand unenumerated arts which go to constitute the social maturity of a State, will be hospitably entertained, and meet with an early developement in Wisconsin.

*Trade.*

Bordered on the East and the West, throughout its entire length, by Lake Michigan on the one hand, and by the Mississippi on the other, every portion of the State has easy access to the Ocean, and a complete command of the eastern and southern markets—an advantage which will be appreciated by those who are acquainted with the mutations, as well as the fixed laws of trade.

On the Michigan side, have sprung up the towns of Milwaukee, Racine, Kenosha, Sheboygan and Green Bay, all flourishing and promising. The growth of Milwaukee, like that of the State of which it is the commercial mart, has been unexampled in the history of the American cities.—Scarcely visited [illegible] white man in 1835, it has now (1852) [illegible] of 25,000 souls.

On the [illegible] border, the elements of wealth, [illegible] been, have scarcely begun [illegible] and the question is still open as to the position of its principal commercial mart. The more prominent points at present, are Potosi, Prairie du Chien, Prairie La Crosse, and Willow River.

Of the interior towns, there are in the lead district, Mineral Point and Platteville; in the basin of the Fox and Lower Wisconsin, Fort Winnebago, Oshkosh, Fond du Lac and Menasha. On the banks of the Rock, Watertown, Janesville and Beloit. Between the Rock and Lake Michigan, Whitewater and Waukesha.

Madison, the Capital of the State, the seat of justice of Dane county, and the seat of the University, is beautifully located in the basin of the Four Lakes, midway between Lake Michigan and the Mississippi.

Janesville, the most populous of the interior towns, is the seat of the State Institution for the education of the Blind.

The population of the villages of the interior above enumerated, ranges from twelve hundred to four thousand each. The list of towns might be greatly enlarged, did it fall within the scope of this article to do more than to present to the emigrant a general view of the natural capabilities, and the present aspect of Wisconsin.

All around is in rapid, though unequal progression, and the town unenumerated to-day, may take its place in the first class to-morrow.

*Internal Improvements.*

Plank roads are in process of construction, connecting the leading towns of the interior with each other, and all with the lake and the river.—Most of the towns on Lake Michigan are penetrating the interior with these facilities of trade and intercourse, to the mutual advantage of themselves and the country.

Of the several railroads projected and chartered, most of which are destined to completion at an early day, two—the "Milwaukee and Mississippi" and the "Rock River Valley roads are already under progress. Cars are already running over the track of the former, from Milwaukee to Eagle Prairie, nearly 40 miles It will be finished to Rock River this season, and to the Wisconsin during the summer of 1853. Another year will carry it through to the Mississippi. The track is laid with heavy T rail, and the road, with all its appurtenances, will be a work of the first class. This road will pass thro' Madison, the Capital of the State, and terminate at or near the mouth of the Wisconsin.

The Rock River Valley, connecting Fond du Lac with Janesville, and to be ultimately extended to Chicago, has been commenced simultaneously at Fond du Lac and Janesville. Several miles have been graded, and are nearly ready for the rail.

A road has been chartered, to run from Fort Winnebago, through Madison and Janesville, to Beloit; there to connect with a branch from the Chicago and Galena road furnishing a continous route from the valley of the Fox and Wisconsin, through the Capital of the State, to Chicago. This route is attracting the attention of capitalists; and the business of the country demands and will effect the early construction of the road, by means of which a continous line of rail road travel to the Atlantic, will be secured to central Wisconsin.

The Lake shore road, from Milwaukee, through Racine and Kenosha, to Chicago, is an enterprise of general interest, and the construction of it cannot be long deterred.

Other rail roads to intersect the State in various directions, either new routes or extensions of old ones, are projected. Some of these doubtless will be carried through, though the period of their completion is more distant than that of those above named.

The State is now in the administration of a large trust fund, derived from the sales of lands, granted by Congress, for the construction of a steamboat communication, from Green Bay to the Mississippi, along the bed of the Fox and Wisconsin rivers. This great work when completed is destined to form an important and valuable water communication between the basin of the St. Lawrence and the great valley of the Mississippi. Once completed heavy freight between St. Louis and New York will inevitably seek this channel, in preference to that by Illinois and Michigan canal, as now it seeks the latter in preference to the eastern routes.

This great work, furnishing a capacious outlet from our Mediterranean River, into our inland seas, and thence, through the enlarged Erie canal and the Hudson, into the Atlantic, will be completed at no very distant day.

The improvement of the harbors on lake Michigan is imperiously demanded at the hands of the General Government, and in the existing condition of the Treasury cannot be longer delayed.—And manifestly no object of expenditure could be more eminently national than the improvement of the outlet of Lake Superior, affording to the ordinary lake navigation free access to the copper region of northern Michigan and Wisconsin.

In connexion with the subject of works of general utility it remains only to say, that the telegraphic wires made early entry into Wisconsin.—The line from Chicago to Milwaukee, and thence to Madison and Galena, has been for some years in operation. A net work of wires now overspreads the State, and all the larger towns are brought into the circuit of instantaneous communication, and into enjoyment of the advantages of this commerce of thought and feeling.

It need hardly be said in conclusion that these evidences of social advancement which meet the immigrant on his arrival in Wisconsin, and rapidly gather around the settler in his new home contrast cheerfully and hopefully with the privation, the hardship, the toil and the danger which fifty years ago environed the pioneer in the forests of Ohio. Indeed, looking at the fact that nature has prepared the soil of Wisconsin for the plow, and its herbage for the immediate sustenance of domestic animals, contemplating the appliances of civilization, which art brings to the very doors of his cabin, he will not doubt—as in truth he need not—that twenty years will do for Wisconsin, what fifty years has barely sufficed to do for Ohio: that in all that goes to constitute a healthy and refined civilization, Wisconsin is destined to a more rapid development and an earlier maturity, than has heretofore marked the history of the States, under the most favorable conditions.

These views are not extravagant. They are conclusions fully warranted by the premises. The predictions of to-day, will be sober history in 1872.

### Supreme Court Judges.

The Wisconsin Democrat mentions the following names of persons, as having been spoken of in connection with the office of Judge of the Supreme Court:

N. P. Tallmadge, D. H. Chandler, A. D. Smith. A. L. Collins, E. G. Ryan, Charles Dunn N. B. Eddy, Ben. O. Eastman, Samuel Crawford, M. M. Cothren, Nelson Dewey, and further says:

"A Democratic State Convention will be called to nominate, and we have no lack of the right material to choose from."

In addition to the above we have heard the names of J. H. Knowlton, H. S. Orton, Judge [H]ubbell and John S. Horner likewise spoken of. [illegible] amidst the array of candidates good Judges [m]ay certainly be selected.—*Madison Statesman.*

It may be well enough to get the names of the numerous candidates before the people, and hence we mention that of FRANCIS RANDALL, Esqr., of this city, who has many friends who will urge his nomination, and whose qualifications are such as to fit him to occupy a seat upon the Supreme Bench, with honor to himself and advantage to the State.

A RAIL ROAD PROGRAMME FOR 1853.—The *Iris* of Niagara Falls, speculating upon the early completion of the Great Western Railroad through Canada, gives the following as the "time-table" by that route, from Detroit to New York City, next season:

The Great Western train will leave Windsor, opposite Detroit, at say 6 A. M., and arrive at the American Falls at 1 to 2 P. M. same day. The passengers may pass from three to four hours here, in viewing the Falls, battle ground, a suspension bridge 800 feet long and 250 feet high, &c., and leave in the train via Lockport and Rochester at 5 P. M. This will set them down in Albany at daylight next morning, and in New York by noon, thus tripping it from Detroit to New York in about 28 hours, spending *en passant* three hours at the Falls.

Show us a route elsewhere, which combines attractiveness with expedition equal to this.

With the completion of the Rail Road from Detroit to Grand Haven, and the establishment of a Steam Ferry across Lake Michigan, between Grand Haven and Milwaukee, this route would bring our city within an easy two days journey of New York.

THE ANNIVERSARY REPORTS.—The following table is given in the New York papers as the summary of the monies expended by the various Religious and Benevolent Societies whose anniversaries have been held in that city. Besides those sums, there are a number of large denominations whose donations go out through their separate organizations:

| | |

| American Bible Society | $308,741 81 |
| " Tract Society | 342,858 93 |

CRAWFORD COUNTY COURIER.—This is the title of a new and neat Weekly paper just started at Prairie du Chien, Crawford County, by Messrs. HUTCHINSON & HURD. It claims to be independent, but not neutral, in politics, morals and religion; and will devote itself especially to a zealous advocacy of Western Interests. The first number contains a well-written and well-argued article in favor of making Prairie du Chien the Western terminus of the Milwaukee and Mississippi Rail Road. We wish the *Courier* a long and prosperous life.

☞ We copy from the last Madison *Statesman* the following notice of a favorite Hotel in this City:

THE AMERICAN HOUSE, owned and kept by P. Kane & Sons Nos. 27 and 29 Spring st. Milwaukee, has lately been much enlarged and otherwise improved, and is now the largest and most commodious establishment in Milwaukee, and is kept in a manner which does credit to the enterprising proprietors. The rooms are large, well lighted and ventilated, and the house is well supplied with attentive and accommodating waiters. The tables are furnished with the best that the market affords, served up in a style rarely surpassed in any city. This House well deserves the high reputation and liberal patronage it now enjoys, and we would suggest to those who may visit Milwaukee, to stop at the American House, and judge for themselves. The charges are reasonable—no one will go away dissatisfied.

WHAT YANKEE DOODLE DOES.—The following ingenious and witty stanza is from a poem by Fitz Green Halleck in the May number of the *Knickerbocker*:

"The good the Rhine song does to German hearts,
Or thine, Marseilles! to France's fiery blood;
The good thy anthemed harmony imparts,
"God save the Queen!" to England's field and flood,
A home-born blessing—Nature's boon, not art's;
The same heart cheering, spirit-warming good,
To us and ours, where'r we war or woo,
Thy words and music, Yankee Doodle!—Do.

WATERTOWN AND PORTLAND PLANK ROAD.—The Watertown *Register* states that the Directors are pushing the work along rapidly, and intend to have it in travelling order by the 1st of August. They have already over 300,000 feet of plank sawed, and the road nearly all graded.

WHIG NOMINATION.—The Whigs of the St. Louis District have nominated SAMUEL CARUTHERS, of Madison Co., as their candidates for Congress.

The Locos are divided between Thomas H Benton and Col. Bogy.

KOSSUTH.—The eloquent Magyar has, since his reception in Albany, gone to Niagara, where it was his intention to remain in seclusion for 10 days or a fortnight, before again appearing in public. We have our doubts about the "seclusion" to be obtained at Niagara just at this time.

"SEND HIM TO BARNUM."—An exchange says that a Member of Congress made a speech the other day, in committee of the Whole, in which he confined himself to the subject matter then under consideration, and *he was not called to order!*

STEAMBOATS ON THE UPPER MISSISSIPPI.—We have now six splendid and commodious steam boats on this trade, forming regular lines from St. Louis and Galena, as high up as St. Paul. The boats come up loaded down to the guards with freight and passengers, and the business increases daily. It is not unfrequent for boats to leave from one-third to half of their loading at this place. We have noticed of late a considerable number of passengers stopping at this point from downward bound boats—in fact, some of our most substantial purchasers are gentlemen that have travelled extensively in the upper country, and choose this as the safest and surest place for investment.—*La Crosse Times.*

FIRE IN SHIELDS.—The barn of Mr. George G. King in the town of Shields was destroyed by fire on Wednesday, May 12. It originated from the burning of a pile of chips some distance from the barn. The fire was carelessly left, and the wind drove the flames into the barn when it was burnt to the ground. Loss about 200 dollars. This calamity falls heavily upon our neighbor King, who is ill-able to bear it.—*Watertown Register.*

WRECK OF THE STEAMER BELLE.—We regret to learn the loss of this vessel, which ran last season in the Walbridge line to Erie. She went ashore after a hard gale, in a fog, at Georgian Bay, Lake Huron. No lives were sacrificed, but the steamer, it is thought, will be a total loss.—*Buffalo Com., 22d.*

## CIRCUIT COURT.

BEFORE JUDGE HUBBELL

WEDNESDAY, May 26, 1852.

In the case of D. C. Reed *vs.* L. H. Cotton, jury brought in a sealed verdict at the opening of the court, of $8,406.66 damages for plff. with costs.

The case of the State vs. James Connaughty, and Patrick McDonald and wife, for the murder of John Gullen, was called on. Dist. Attorney BUTLER and J. E. ARNOLD for the State; Messrs DORAN and SMITH for deft. McDonald, and Mr. MALLORY for deft. Connaughty.

[It will be recollected that the prisoners were arrested on Tuesday, the 17th of June, 1851, on suspicion of having caused the death of GULLEN who had been missing for some days. It was supposed that he had been murdered on the night of the 15th, and various circumstances pointed directly to the parties. Search for the body was unremitted, but unsuccessful, until Thursday afternoon, when it was found floating in the river, near Williams' warehouse, bearing marks of violence. A coroner's jury found a verdict of wilful murder, and the Grand Jury at the next term found indictments against the prisoners.]

Mr. Smith, of counsel for McDonald, moved for a separate trial for his client, on the plea that Connaughty's wife was a material witness for his case. The motion was opposed by the District Attorney, on the ground that it was too late to come in with the motion, and denied by the Judge on that ground, and also on the ground that the expense to the county of two trials would be too great, unless extraordinary reasons existed, which he did not think was the case here.

The panel of Jurors was called over, and all answered to their names.

The challenges were arranged so as to give the State 6 peremptory challenges, and the defence 48—24 for each prisoner, (Mrs. McDonald not being present.)

The prisoners were brought into court. Mr Butler asked whether Mrs. McDonald, one of the prisoners charged, was present. (It is well known that Mrs. McD. was long since discharged by Judge WELLS, of the County Court, upon a writ of *habeas corpus*, and she is understood to be in Canada. An order was granted for a separate trial for her, and the present case stands as the

TRIAL OF JAS. CONNAUGHTY AND PATRICK McDONALD, FOR THE MURDER OF JOHN GULLEN.

The Clerk proceeded to call the jury.

The array was exhausted.

The Court excused such of the panel as were not citizens, from further attendance during the term, as the time would be occupied with criminal cases.

Edwin Palmer—ditto by McDonald's counsel.
John Lascelles—had formed an opinion.
John G. Inbusch—ditto.
Chas. Waterman—questioned, and sworn in Mr. Steele's place.

The jury being complete, were polled.

A. H. H. BUTLER, District Attorney, opened the case to the Jury, by stating to them that the Grand Jury, at the February term, found an indictment against the prisoners—and that the case of the prosecution would rest on circumstantial evidence entirely. They would endeavor to prove that Gullen was living on the 16th June last, that a few days afterwards his dead body was found in the Milwaukee River. That on the night of the 16th, Gullen was in McDonald's house, with McD's wife and Connaughty—that towards morning there was a row at the house, disturbing the neighborhood—that blows were heard, and then the moaning of a person in pain—that soon afterwards a waggon was heard to go from the place—that a wagon was seen about that time at the river near where the body was found, and went back up the street.

That Connaughty owned a wagon, on which was found blood, as also about the house of McDonald, and in the road down the street. That bloody clothes were found in McDonald's house, and Gullen's cap and coat in Connaughty's house. That a rolling pin was found covered with blood and human hair, and a brick with a piece of scalp and hair upon it, which last was taken out of the hand of the finder by one of the prisoners, and conveyed away.

The body was found 3 days after, in the river; that the physicians would testify that Gullen must have been dead when thrown into the river.

After some impressive remarks upon the importance and solemnity of the case, and the responsibility of the Jury, both as regards the lives of the prisoners and the safety of the community, and informing them of what they might find as a verdict under the indictment—the Dist. Attorney read the indictment against the prisoners.

*Doct. Hatchard* called as witness;—was called upon as a physician to examine the body of John Gullen, when it was found. Found eight contused wounds of the scalp on the head, as if made by an instrument having a sharp edge—wounds were from 1½ to 2½ or three inches long, laying bare the bone—mostly on the front and top of the cranium. The upper lip was divided—bruised through—as by a blow from a blunt instrument.—No other external marks of violence. Much effused blood under the scalp all over the skull in the neighborhood of the wounds. On left temple very great effusion of blood, but no cut. Considerable infiltration of blood in the membranes of the brain. No fracture of the skull, and brain itself in a natural state. Lungs healthy—no fluid found in them—stomach healthy and little or no fluid in them—other organs healthy. Decomposition went on very rapidly after body was taken out of water. Thought body had not been in the water over four or five days. All the signs mentioned indicate that the body must have been dead when placed in the water—such was witness' opinion—if drowned there would have been water in stomach and lungs. A person after receiving such wounds could not have walked to the water—Ordinarily such blows would produce death, tho' sometimes not—is of the opinion that Gullen's death ensued from the effect of the wounds described. The patches of effusion of blood in the brain seemed to correspond with the effusions outside.

(This witness was examined first, as he wished to leave town this morning.)

## City Matters.

THE "FAKIR OF SIVA."—This prince of necromancers commences his lectures and experiments in *diablerie* at Gardiner's Hall *this* evening. His apparatus is extensive and costly, and his budget includes all the wonderful feats of the cleverest of his tribe. Every necessary preparation has been made to bring out his entertainment in superior style. Those who desire to do so can secure seats by applying at the Hall during the day. Mr. McGuire, the Fakir's gentlemanly Treasurer, will be there to wait on them between the hours of 10 o'clock A. M., and 1 o'clock P. M. Gentlemen accompanied by Ladies will find the most desirable seats on the main floor of the Hall. See advertisement.

THE KUNKELS.—These pleasing Vocalists gave the last of their series of Concerts in our City yesterday to a large and delighted audience, and leave this morning for Waukesha and Janesville; in each of which towns they propose to give one of their popular entertainments. They perform at Waukesha to-night, and at Janesville to-morrow evening. We commend them and their business man, Mr. FORD, to the favor and patronage of the public, and the good offices of our brethren of the press.

SCANDALOUS.—Yesterday evening some youngsters, playing with those mischievous pests, called fire crackers, threw one under the feet of a team attached to a farmer's wagon in East Water st., near our office. The team started off on the run, dragging their owner with them for some distance, and injuring him considerably. Near the City Hotel, they ran into a buggy, which Mr. Badgley, of this city, was driving. He sprang out and saved himself, but the horse and buggy were nowhere, in a minute. The boys ought to be soundly whipped.

ERROR CORRECTED.—The telegraph report of the markets which we published yesterday morning should have been credited to the O'REILLY Line, instead of SPEED's. How the error occurred we cannot imagine.

THE "MAI FEST."—It is suggested, in order to help along the People's Festival on Monday next that the stores and other places of business be closed in the afternoon, and that all hands make a holiday of it. We hope that the suggestion may find universal favor.

PEOPLE'S FESTIVAL.—An adjourned meeting of the Vigilance Committee and the Committee of Arrangements, for the Great People's Festival, appointed for Monday next, will be held at the house of THEODORE WETTSTEIN, in Market Square, *this* (Thursday) evening, at 8 o'clock.

LIFE OF AN EDITOR.—The editor of a paper published at Canton Ohio, gives the following description of his partner:

"Mr. Pike and I published a newspaper in 1835, among the Miami Indians in the State of Indiana. It was a great partnership that. We had two advance paying subscribers, one who liquidated his subscription with beans, the other with saw logs. Godfrey, the chief, took five papers, and could not read a word. Our paper was called "Peru Forester," and being printed in the woods, that title was appropriate. The town of Peru had a number of magnificent names for its streets, such as Pearl, Broadway, &c., which streets exhibited the animating and bustling spectacle of stumps and trees as high as a man's head. The stirring events which transpired in that city imperiously demanded a couple of chroniclers, and Pike and I were at hand to discharge this important function. Pike wrote poetry, and I dipped considerably into State politics, and discussed in a very learned manner every question of interest to the few settlers and Indians. Besides being an editor and printer, he kept the Broadway Hotel—was post master, justice, of the peace, land agent, pettifogger, canal contractor, merchant, and a day laborer, overseer, of the poor, painter, had been a schoolmaster, was twice a widower, was brought up a Quaker, and the last time I saw him he was a preacher—had married a third wife, and was an auctioneer, and what more I know not."

THE CERTIFICATE CURRENCY.—We are assured that the Exchange and other deposite banks of this city have determined, for the present at least, to receive, as usual, bank notes secured by a deposite of canal revenue certificates.

This determination puts an end to all uneasiness, if any was felt before, in regard to this species of currency—and, if followed elsewhere, relieves the public from the practical inconveniences and losses which must otherwise have resulted from the decision of the Court of Appeals. We have yet to perceive why this currency is not just as safe as that based on the deposite of state stocks, or why it is not even more safe than before—now that instead of being a lien upon contingent and prospective revenues, the certificates have become by the decision of the Court, a direct and indefeasible charge on the state treasury.—*Albany Argus.*

An Act

To amend section 12 of chapter ninety, of the Revised Statutes.

*The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:*

SEC. 1. Section twelve, of chapter ninety, of the ravised statutes shall be so amended as to read as follows, to wit:

Approved, April 14, 1852.

☞ The Indiana Senate has passed the bill authorizing free banking in that State, Issues to be secured by United States Government, Indiana, New York, Kentucky and Pennsylvania Stocks. The bill had previously passed the House. It will undoubtedly become a law. It requires a specie basis in addition of 12½ ℘ cent.—*Buffalo Express.*

FROST.—A severe frost occurred on the night of Wednesday, which was a caution to early vegetables. Corn, which had come up, was killed, and it is supposed that the fruit is cut off.—*Watertown Register.*

HOOFLAND'S GERMAN BITTERS.

THESE celebrated Bitters prepared by Dr. C. M. Jackson, 120 Arch-st., Philadelphia, are performing astonishing cures throughout the whole country. We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complaint, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of, and many others to which 'flesh is heir to.' There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Arch-st., Philadelphia, of Jackson, or his agents throughout the country.

NOTICE EXTRAORDINARY—GREAT IMPROVEMENT.

JOHNSON'S
Chemical Hair Invigorator,

TO prevent baldness, and to restore the Hair that has fallen off or become thin, and to cure effectually scurf or dandruff. Prepared only by S. JOHNSON, Jr., 151 East Water street, Milwaukee.

The subscriber respectfully informs the public, that he has made recent improvements in the manufacture of the celebrated CHEMICAL HAIR INVIGORATOR.—It was originally intended more as a restorative for DISEASED hair, than as a BEAUTIFIER, but by a late discovery, the proprietor is now manufacturing it on a more extended scale, and in such a manner, that without deteriorating from its beneficial qualities, it renders it more desirable as an appendage to the Toilet.

The INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended, with a most delicate, silky and glossy moisture for the hair never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair; entirely frees the skin from scurf, dandruff and other cutaneous diseases; disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy and glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads it lays the foundation for a good head of hair.

N. B.—Those having Invigorator on hand may exchange for the improved.

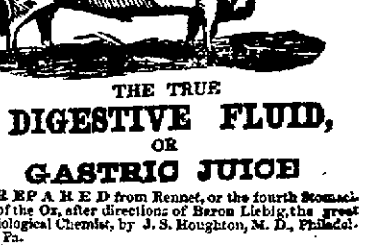
## PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

**Another Scientific Wonder!**

**DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!**



**THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE**

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

**SCIENTIFIC EVIDENCE.**

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on [illegible] published by Fowler & Wells, New [illegible] states the same great fact, and describes [illegible] preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applie to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

**AS A DYSPEPSIA CURER,**

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

**OLD STOMACH COMPLAINTS.**

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

THE WORLD'S FAIR

### PREMIUM SAFES.

DEPOT,

Green Block, Water St.,
*(Between Maiden Lane and Wall Street,)*
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Stillwell & Montross, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Pitcher & Robinson, and Messrs. John Lockwood & Co. in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

### SALAMANDER SAFES.

WILDER'S PATENT AND RICH'S PATENT COMBINED.

**$100,000 SAVED.**

FIRE in Pearl Street and Fletcher Street, New York.—Three Stores and their contents destroyed. Deeds before words!

**RICH'S SAFES AGAIN!**

ELEVEN SAFES of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

**MR. GILBERT'S LETTER.**

THE FIRE IN FLETCHER AND PEARL-STS., NEW YORK.

New York, Dec. 20, 1851.

Messrs. STEARNS and MARVIN, successors, to C. Rich & Co., No. 146, Water Street, New York—SIRS, when the fire was consuming my place of Business, No. 216, Pearl Street, I was absent in Rensselaer County, testing a new cleaning apparatus in connection with my Excelsior Thresher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 10 hours before I was enabled to commence operations; after which it required 51 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same fate, on the second floor, from which they fell, post cra... of earthen ware in the cellar, the ruined safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,900, yet the salvation of my books in your Salamander, with the representatives of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 231 Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safe in use) to call at the depot 146 Water street, New York, to see the interior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

☞ Orders for Burglar Proof Vaults, and Vault Doors, promptly and faithfully executed.

STEARNS & MARVIN,
[successors to Rich & Co.]

## MISCELLANEOUS.

**IMPORTANT TO THE PUBLIC!**

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 19th volume of the Repertory of Arts, invented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOSEPH P. WOODBURY,

HAWKINS'

### STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

**Packing, Flour and Whiskey BARRELS,**

and PIPES or HOGSHEADS, at the rate of

**600 Whiskey or 800 Flour Barrel Staves PER HOUR,**

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge,* and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

### G. GRÆSSLE'S
### PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by occular inspection of the excellent quality of the same.

ENNO MEYER,
Druggist, 374 W. Water-st, 2nd ward.
Milwaukee, Feb. 5, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

*To G. Graessle:*—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

G. W. MYGATT, Architect.

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

**GRIST MILLS.**

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

**THE ECONOMIST**

DOUBLE OVEN COOKING STOVE,
*(Which received the First Premium at the State Fair, lately held at Janesville,)*

Possesses great advantages over every other stove, for plain duties and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood. Is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the conveniences of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

## PATENT MEDICINES

### Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, *genuine,* and free from *Humbug,* intended as much to *cure* as to *sell.* When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health.* In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No *Family Physician,* in ordinary cases, is needed by those who own the *Graefenberg Manual of Health,* and strictly abide by its directions in the use of the medicines.

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug,* or pleasant drink, but *as it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect.* It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely and in connection with our *Health Bitters,* are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflamation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION.—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females,* it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each.

**THE HUMAN FRAME**

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

**PAIN**

Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

**INSTANT RELIEF FROM PAIN**

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

**RADWAY'S READY RELIEF**

*In a few seconds*

WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

**NEURALGIA.**

PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

**DANGEROUS PRACTICE.**

The use of Morphine, Strychnine, Aconitine, Belladonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

**RADWAY'S READY RELIEF**

IS FREE FROM MORPHINE,

*And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.*

**SICK HEADACHE.**

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

**ALL BOWEL COMPLAINTS,**

Diarrhoea, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

**SPEEDILY REMOVES THE CAUSE.**

**RHEUMATISM.**

PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

**CHILL FEVER.**

CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

**PAINS OF ALL KINDS.**

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

**BEAUTY.**

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

**RADWAYS MEDICATED SOAP.**

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

**TO THE COMPLEXION IT IMPARTS BEAUTY.**

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

**RADWAY'S CIRCASSIAN BALM.**

Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

*Radway's Circassian Balm is the "ne plus ultra."*

DR. HOOFLAND'S CELEBRATED GERMAN

**BITTERS,**

Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

**READ AND BE CONVINCED.**

[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25

"Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

**A Word of Caution to the Public!**

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear, by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud."
